### WOMAN IS KILLED HUSBAND HELD

William Hinton, Colored, Samuel Cunningham And Emmet Dobson, Two Later-Named Also Colored, Being Held in Monessen

#### DEAD WOMAN MRS. M. HINTON

Statements Relative to Murder Are Conflicting—the Husband With the Two Material Witnesses Will Be Held Until the Coroner's Inquest

William Hinton, Samuel Cunningham, and Emmett Dobson, all colored, are being held in the Monessen police station pending investigation into the murder of Mrs. Mary Hinton, 25 years old, wife of William Hinton, which occurred at 5:30 o'clock on Saturday afternoon at her home, 1039 Morgan avenue, Monessen.

The woman's death was due to a fractured skull and cuts about the head, and it is opined that the instrument of destruction was a hatchet. The husband is charged with the crime, but he proclaims his innocence.

Dobson claims that Hinton quarreled with his wife a few hours before her body was found in bed, claiming that he did not see them quarrel, but was in an adjoining room at the time. When Dobson entered the room where the two had been quarreling he found Mrs. Hinton's face covered with blood and at the request of Hinton, he assisted him in putting her to bed. The quarrel was a result of Mrs. Hinton being out all night and being brought home by a neighbor woman in an intoxicated condition. When Cunningham returned from work, he being a boarder at the Hinton residence, Dobson told him to go to Mrs. Hinton's room and awaken her to make preparations for the evening meal. Cunningham went to the door and found her body. Dobson and Cunningham immediately notified the police, and Hinton, who had gone to his work at the Pittsburgh Steel plant, was summoned, but denied any knowledge of the crime. Police discovered blood on his shirt, and sluces and also discovered a place in the room where a pool of blood had been hurriedly washed up. Dobson also had blood on his shirt, but he claimed it was smudged when assisting Hinton in putting Mrs. Hinton to bed.

The body of the murdered woman was taken to the morgue and the three men are being held as material witnesses. They will be held pending the coroner's inquest.

### ROTH MAKES GOOD THE CHECK

A. I. Roth, who, while under the influence of intoxicants, gave a check for goods at a local business house, was released from custody Saturday, after the check was made good, and accompanied Mrs. Roth to Glassport, where she resides.

The case of Roth is a sad one. Burgess David R. Duvall, who has his personal acquaintance, said that Roth is a fine fellow, when sober, and that his weakness for the flowing bowl has been the cause of his troubles. He is an oil well driller by occupation.

The business firm, of whom Roth made the purchases, was willing to drop any charge or charges it might have made, on its being reimbursed for the goods purchased by Roth.

#### EXPERTS MEET IN OPENING SESSION

Paris, Jan. 14.—(United Press)—Experts' committee Number one, which is to recommend means to restore the German financial system and balance the German budget, met in the Hotel Astoria today for its opening session.

Louis Barthou presided, welcomed the delegates and outlined the committee's jurisdiction. Charles G. Dawes, former director of the United States budget, who is to be chairman of the committee, responded.

When the committee met, Le Journal declared that the American delegates, who, besides Dawes, are Owen D. Young and Henry M. Robinson, will occupy the position of referees in the discussions. To affirm their independence of the reparations commission, under whose auspices the committee is meeting, the Americans have refused to accept reimbursement for their expenses, Le Journal states. This, the newspaper comments, makes their position strong.

## CODE DECISION IN FEBRUARY

Harrisburg, Jan. 14.—(United Press)—There is considerable speculation among state officials as to the disposition to be made of the administrative code now that it is in the custody of the State Supreme Court for decision.

There is practical unanimity of opinion that an early decision will be handed down, possibly the early part of February.

One official, however, whose interest in the code is paramount, is of the opinion that the court will not make known its findings on the governor's reorganization act until political time for the next legislature is at hand.

State Treasurer Snyder, who precipitated the test of the instrument, adheres to the belief that a special session of the legislature will have to be called by the governor in any event.

His argument is that in case a decision favorable to his contention of unconstitutionality is handed down,

an extra session would unquestionably be necessary to permit the payment of moneys under appropriation acts woven into the fabric of the code.

On the other hand, Auditor General Lewis has held up a number of important appropriation bills involving expenditure of about \$500,000, which he could not reconcile to the code, and which would be valid if the code were wiped out but invalid as it stands.

Snyder holds that if Governor Pinchot wishes to avail himself of this money after the court acts and if it is of the opinion that the court will not make known its findings on the governor's reorganization act until political time for the next legislature is at hand.

State Treasurer Snyder, who precipitated the test of the instrument, adheres to the belief that a special session of the legislature will have to be called by the governor in any event.

### Boy Hit By Autoist Trying Avoid Accident

Alex Salko of Donora and Charles E. Davis of Monongahela were in a unique mixup last night. According to information received, Davis, in trying to avert a collision with a car, hit Salko, who was on a bicycle.

Salko, aged 16 years, at Twelfth street and McKean avenue. The lad was taken to the Charleroi-Monessen hospital, where the statement was made this morning that his injuries are not serious. In the mixup Salko bumped his machine into a street car. The time was 6:45 o'clock.

Salko left a forfeit for his appearance before Burgess David R. Duvall this evening at 7 o'clock, but Davis was released.

Louis "Friday" DeMarco was arrested at the Casino cafe, it is said, with a revolver in his possession. He will have his hearing before the burgess tonight.

### Fire Menace The U. Of P. Structure

Press)—Fire raging in an abandoned coal mine menaced the buildings of the University of Pittsburgh and residents in that district today.

The mine, which is located on the old Donora section, started two weeks ago and today was shooting out clouds of smoke and sparks.

The buildings of the University of Pittsburgh are located about two blocks away, and while there is no immediate danger, city authorities have been appealed to.

### AGED MAN DIES VERY SUDDENLY

Leonidas H. Reeves, 74 years old, an old and highly respected resident of Coal Center, died very suddenly yesterday afternoon at 4 o'clock. Mr. Reeves' passing was due to apoplexy. He had been in good health, attending divine services as was his wont. The stroke came without warning.

Decedent was born in Coal Center February 25, 1850, and had spent his entire life in that town. He had been engaged in the mercantile business for a number of years. At the time of his passing, he was a member of the Coal Center Borough council, and had, during the interim of his life, taken an active interest in civic affairs. He was a Democrat in politics. He was also actively affiliated with the work of the glorification of humankind through the avenue of the Coal Center Presbyterian church. He was a choir leader, and a member of the board of trustees of this denomination.

There survive his widow, and a son, H. B. Reeves, who lives with his parents, and a daughter, Mrs. W. Homer Hendricks, of New York.

### TWO DROWNED WHILE SKATING

Two boys were drowned in a reservoir at Leckrone, near Uniontown, yesterday, when the ice gave way under one boy and his companion dove into the icy water in a futile attempt to rescue him. The victims were Edward Swift, aged 14, and Andrew Golden, aged 12. Both bodies were recovered a short time later.

Several other boys in the party dove after the companions and when they were unable to locate them beneath the surface they swam ashore and spread the alarm. The two bodies were recovered by grappling hooks.

### FRANC TUMBLES TO NEW LOW LEVEL

London, Jan. 14.—(United Press)—Frenzied efforts on the part of French financiers over the week-end to arrest the fall of the franc proved unavailing, and the franc tumbled to a new low level—\$92.60 to the pound sterling—on the London exchange today.

The pound also slumped as compared with the dollar, falling to 4.25 1-4.

### STILL SELL FLASKS DESPITE PROTESTS

Paris, Jan. 14.—The French franc opened at 21.60 to the dollar today, 40 centimes lower than on Saturday.

New York, Jan. 14.—(United Press)—Department stores in New York are still selling hip pocket flasks despite the protests of Rev. Christian F. Reiser, of Chelsea M. E. church. Rev. Reiser told his congregation his letters scolding store managers for "aiding law violations" had not even been answered.

### Electric Light Reveal Glories King Tut's Tomb

When the explorers the other day raised the golden lid of King Tut's sarcophagus it was an electric light that showed the glorious decorations of blue and gold.

Recent darkness of thirty centuries was dispelled by the invention of an American, Edison. Now British scientists are urging that a special room in the British Museum, into which sunlight cannot penetrate, be used for the display of the treasures removed from the tomb of the Pharaoh. It is proposed that only electric light be used for their display, because it is feared that exposure to sunlight or diffused daylight would fade the ancient hangings and cause them to lose their beauty.

An extensive series of experiments covering a period of three years has recently been concluded by the Museum officials and the injurious effects of sunlight upon Museum specimens was clearly demonstrated. The violet and ultra-violet rays were found responsible for the fading of colors, and these can be filtered out of sunlight only by the use of a yellow glass unsuitable for exhibition purposes.

Electric light, on the other hand, is so largely free from these harmful rays that even diffused daylight was found to be six times as destructive as the light of incandescent lamps.

### MASONS TO MEET AT COUNTY SEAT

#### LINCOLN SAYS HE SLEW WIFE

Aurora, Ill., Jan. 14.—(United Press)—Warren J. Lincoln, eccentric attorney and horticulturist, and distant kinsman of Abraham Lincoln, who last night confessed he killed his wife and burned her body with that of Burr Shoup, was today cross-examined in his belief he also killed Shoup. Although Lincoln insisted his wife killed Shoup, police said they believed Lincoln may have murdered both.

The January meeting of the Monongahela Valley Chapter of the Daughters of the American Revolution was held Saturday, January 12, in the Elks club of Donora with approximately 40 members present. The business session was presided over by the Regent, Mrs. W. H. Alexander of Monongahela. The study hour was in commemoration of Benjamin Franklin and the roll call was responded to by quotation from "Poor Richard's Almanac."

were two interesting papers given on the day's subject, the first was, "Franklin the Man Inventor and Writer," given by Mrs. James M. Frye of Monongahela, while the second was "Franklin the Statesman and Diplomat," given by Mrs. D. C. Herron of Monongahela. Miss Ready, director of music in the schools, delighted her audience with three vocal solos, accompanied on the piano by Miss Wilson of Donora. In closing the contingent sang, "America the Beautiful" after which luncheon was served by the Donora ladies.

The next meeting will be the annual luncheon held at the Elks club, Charleroi, Saturday, January 19. This annual event is always a social success.

### BUTLER IS READY FOR SECOND DRIVE

Philadelphia, Jan. 14.—(United Press)—"Old Gimlet Eye" Butler, the marine general who as director of public safety has launched a bombastic attack against law-breakers, is expected back at his desk today to plan for a second 48-hour drive against crime and vice.

After five hectic days of warfare against denizens of the underworld, Butler took the week end off and mysteriously disappeared. As soon as the director left the city reports spread like wild fire that he had been assassinated by an underworld

gunman. The report was officially denied and it was explained the "Fighting Quaker" was merely taking a brief rest.

The first week of the Butler regime has made the city virtually "clean." Today there is not a saloon open in Quakertown. By raids and moral persuasion the police have closed up 1,425 liquor dispensing places.

Police shattered all previous records last week by making 420 raids. They swooped down on cigar stores, gambling dens, vice dives, pool rooms and all places suspected of being "crime breeding" establishments.

Only 181 persons were arrested over the week end for intoxication compared to 320 the previous week.

Authorities believe the drunks either had their liquor supply on hand or obtained their drinks from a few saloons which are closed in the front and are "open" at a side door.

No major banditry has been reported since the Philadelphia police became Butlerized.

### REV. WILSON TALKS OF THE BLUE LAWS

Last night, at the Baptist church, Rev. H. H. Wilson, in his sermon, said substantially: "The Blue laws do not save a man's soul, and Jesus never called any man to preach Blue laws, but he did call and is still calling men to preach His laws. His laws are not Blue laws; they are 'White and Black.' The white law of love is the one that never fails, and that is the one which is so scarce these days; if men would only get God's law in their hearts, they would not need Blue laws or any other laws, for the Bible tells us in First Timothy 1:9-10: 'For the law is not made for a righteous man, but for the lawless and disobedient; for the ungodly and for sinners; for unholy and profane; for murderers of fathers and murderers of mothers, for men-stealers, for whoremongers; for them that defile themselves with mankind; for men-stealers, for liars, for perjured persons, and if there be any other thing that is contrary to sound doctrine; so you see if a man has Christ, that man will keep Christ's laws. No preacher has a right to try to take any habit from a man, and still leave

Give him Christ, and then the habit and appetite both will disappear, for, says the Bible, in Second Corinthians, 5: 17, 'Therefore, if any man be in Christ he is a new creature; old things are passed away, behold all things are new. If a man says I am going to stop this habit, that does not make him a Christian, he is still the same fellow with the habit left off; what he needs is a change of heart; and Jesus alone can do that.

"If I take a little pig, and wash it clean, and put a red ribbon around its neck, and place it in the parlor, that little pig is not changed, because it has a new environment; the parlor does not change the pig, but the pig changes the parlor. What the pig needs is a change of nature. So does every man before he can get into communion with God.

"The Black law is the law of death; death is the result of sin. Says Romans 6:23, 'For the wages of sin is death, but the gift of God is eternal life through Jesus Christ our Lord.' Man dies physically because our first parents sinned, and the soul dies eventually, and eternally, because of sin. That is, if a man dies in his sin, he is eternally dead out of communion with God, lost, for Hebrews 9:27 tells us it is appointed unto men once to die, but after this the judgment.

"Now is the time to prepare for the next life, the way we treat Jesus here is the way He will treat us there. In Galatians 6:7, 'Be not deceived, God is not mocked, for whatsoever a man soweth that shall he also reap.' If hatred is sowed, hatred shall be reaped. Seed corn is planted, corn is brought forth, not wheat, and Hebrews 12:14, says, to follow, peace with all men, and holiness without which no man shall see the Lord. This is the secret of communion with God."

The pastor of the Baptist church spoke to two goodly-sized audiences yesterday, and this is the substance of last night's message.

### LINCOLN SAYS HE SLEW WIFE

(Continued from First Page)

the man and woman.

Lincoln was returned here from Chicago where he had been employed under an assumed name since last October. It was the second time the man had disappeared from Aurora since he killed his wife on January 10, 1923.

When Lincoln vanished last April he left "evidence" behind which indicated he had been murdered. Bloodstains, a broken window, and Indian clay and disarranged furniture led police to believe the man had been slain and his body secreted.

His wife and brother-in-law whom he said had "run away" were suspected of the crime.

Lincoln showed up two months later, however, and gave police a story of his wanderings. He accused his wife and Shoup of abducting him and holding him prisoner. The story, police said, seemed doubtful and this was the first time they suspected him of the double murder. They had no evidence and were not even certain that Lincoln's wife and her brother were dead. From this point on, however, police said, Lincoln walked directly into the trap laid for him which finally resulted in his confession.

Authorities will attempt to have Lincoln re-enact the killing and hope to exact from him a confession that he also killed Shoup.

### INQUIRE INTO SEA'S SECRETS

Scientists Have Discovered Many Things Concerning the Denizens of Ocean's Depths.

Humans may have their matrimonial tangles, but they are nothing to the matrimonial problems of the native oyster. In "Animals of the Sea," F. M. Martin Duncan, F. Z. S., tells us that each individual changes its sex at different periods, but the authorities do not agree as to the sex with which the oyster starts its life. Young oysters enjoy but forty-eight hours' freedom as moving creatures; then they settle down for life. Among the oyster's enemies is the starfish. An invasion of "five-fingers" will sometimes destroy a whole bed of oysters in a single night. Some most interesting points gleaned from this book include: The female lobster has been known to produce 100,000 eggs at a time. Limpers go on traveling expeditions at night, but by a wonderful homing instinct, return to exactly the same spot on their "home" rock. Whelks have from 220 to 250 teeth each, the winkle possesses a set of 3,500, but the dental outfit of the "umbrella shell" is 750,000 teeth. The sea urchin has four different kinds of spines, each with a specialized function—weapons, poison bearers, "chewers" and cleaners. A giant clam will weigh 300 pounds. A fifty-four-pound ling was found to possess 23,361,000 eggs.—Boston Transcript.

**Chief Crowfoot.**

The Blackfoot Indians were indignant when the C. P. R. first gleamed over their reserves for the government had said nothing to them about it. The young warriors talked war, but the veteran chief Crowfoot listened to the explanations of Pete Lucombe the great missionary who took it upon himself to promise that the government would compensate the Indians. The C. P. R. rewarded Crowfoot with a perpetual pass over the great steel road. The aged chief had the pass framed and wore it for the rest of his life on his breast hanging round his neck by a chain.

**Dancing for Growing Child.**

An awkward and angular period of growth is passed through by quite a number of girls and boys. Sympathetic treatment should be accorded these young unfurls, and physical training given. In the latter dancing is admirable, its rhythm and harmony making their appeal. In dancing physical activity co-operates with the mental faculties, and under their combined influence the angularity and heaviness of the growing child disappear with the acquirement of perfect balance.

**Christ of Andes.**

In 1902 Chile and the Argentine made an unconditional treaty of arbitration and agreed to disarm part of their ships and troops. The agreement was for five years, but it has been continued since. Before that the countries were on the verge of war. To commemorate the peace a colossal figure of Christ was cast from the guns of the dismantled frontier fortress. It stands 15,000 feet above the sea on the frontier between the two countries, one hand stretched in blessing, the other holding a cross.

#### RUMANIA'S "SUB-DEB" PRINCESS ILEANA TO BE QUEEN OF BULGARIA

Princess Ileana, of Rumania, whose betrothal to King Boris, of Bulgaria, has just been reported. The lovely little maiden is in her sixteenth year and the marriage probably will not take place for a year or so. Her beautiful and clever mother, Queen Marie, former British Princess, has already linked Rumania to Greece and Yugoslavia through marriages of her children—the latest match will come near to completing her plans for a "Balkan matrimonial league." This photo was taken in the doorway of Sinia, the castle used as a country home by King Ferdinand and Queen Marie.
